

Preaching to the “No Problem!” Generation

“I Just Use Words and Words Don’t Mean Anything.”

In this day and time, you may find communicating with teenagers and young adults much different than what you’re used to. This workshop will address a culture where language barriers may exist between various generations.

The participants will be able to:

- Identify three characteristics of post-modern thinking
- Identify a minimum of four reasons today’s “audience” is so challenging
- Identify three characteristics of a “Life Purpose Sermon”
- Identify three things a sermon should “Be”

Come join us!

Attending this session will earn you four (4) CEUs.

**Lunch and cost of CEUs will be provided by
District Superintendent, Buddy Cooper.**
